Advance PE Coated Cloth Tapes
Product Safety Data Sheet
Health and Safety Data – Version 6

1 Product Identification

Product Name: Polythene Coated Cloth Pressure-Sensitive Adhesive Tape
Product Code: Advance PE Coated Cloth Tape

Company: Norbord Europe Ltd.
Station Road
Cowie, Stirling
Scotland
FK7 7BQ
Tel: (+44)(0)1786 812 921

In Case of Emergency:
Tel: (+44)(0)1786 812 921
Office hours.
Ask for Health & Safety or Technical Manager.

CAS/EINECS:
Physical form: Polythene Coated Cloth tape on a roll

2 Hazards identification

Physical hazard
Non-classifiable

Health hazard
Non-classifiable

No hazard or precautionary statements

3 Composition/information on ingredients

Polythene coated fabric coated with a pressure sensitive adhesive containing resins and elastomers.

4 First aid measures

DESCRIPTION OF FIRST AID MEASURES
In cases of accidental ingestion, eye contact, persistent skin irritation, or other, seek medical advice.

General: Ingredients which may themselves present a toxic hazard do not normally constitute a hazard when incorporated into the product. Tape is not a hazard in normal circumstances.

Skin contact: May cause irritation to persons with sensitive skins. The tape should not be used in applications where prolonged skin contact is possible e.g. medical plasters, bandages or hand protection tape.

Eye contact: Avoid eye contact, which may result in mechanical abrasion damage.

Mouth: The tape should not be used in applications such as toys, where ingestion is possible.

Immediate / special treatment:
Not applicable.

5 Fire-fighting measures

EXTINGUISHING MEDIA

Extinguishing media:
Suitable extinguishing media for the surrounding fire should be used. Use water spray to cool containers.

Special precautions: The product will burn in a general fire to produce toxic fumes e.g. carbon monoxide. Breathing apparatus may be required.

6 Accidental release measures

PERSONAL PRECAUTIONS, PROTECTIVE EQUIPMENT AND EMERGENCY PROCEDURES

Sweep up and place in suitable containers for disposal.

7 Handling and storage

PRECAUTIONS FOR SAFE HANDLING
Prolonged storage should be avoided to minimise oxidation. Store the tape at recommended temperatures and protect from dust, moisture, direct sunlight, corrosive and solvent fumes. Storage life is one year from date of despatch from manufacturer for
technical properties. Wide widths (greater than 300mm) or adverse storage conditions may reduce shelf life.

8 Exposure controls/personal protection

CONTROL PARAMETERS

No specific personal protective equipment is required, although a good standard of personal hygiene should be maintained.

Wash hands after use and especially before handling food. The tapes have not been formulated and tested for prolonged skin contact and should not be used as a medical plaster or as a hand protection tape. People with sensitive skin or those concerned about skin abrasion should take suitable precautions e.g. proprietary barrier cream or gloves.

9 Physical and chemical properties

Solid roll of adhesive tape in various colours.

10 Stability and reactivity

Chemical stability: Stable under normal conditions.
Conditions to avoid: Direct heat or sunlight.
Hazardous decomposition products: Toxic fumes such as carbon monoxide may be produced when burnt.

Incompatible materials
Materials to avoid: Strong oxidising agents.

11 Toxicological information

INFORMATION ON TOXICOLOGICAL EFFECTS

The product is not classifiable on the basis of physico-chemical or health effects.

12 Ecological information

The product is not classifiable as harmful to the environment. Biodegradation is expected to be poor, due to the product’s low water solubility.

13 Disposal considerations

Dispose of as combustible non-toxic landfill to local regulations. Do not incinerate without suitable fume scrubbing equipment on stacks.

14 Transport information

Non-hazardous, not classified under IMDG or ADR regulations.

15 Regulatory information

No specific safety, health and environmental regulations/legislation are associated with these products.

16 Other information

This information is based on our current level of knowledge and relates to the product in the state in which it is delivered. It is intended to describe our products from the point of view of safety requirements and is not intended to guarantee any particular property. Refer to the current issue of the Technical Data Sheet for recommendations as to tape use.

Issue date: 31st July 2017

This technical data sheet supersedes all previous information issued regarding the above product.
