

## Condition Monitoring Technician – South Molton

Our engineering team at South Molton is keen to talk to an electrical or mechanical NVQ level 3, preferably with a knowledge of condition monitoring tools and techniques, but more importantly, who is a data driven individual with a curiosity about how things work.

Ideally, you will also have previous experience of vibration analysis and planned maintenance scheduling and implementation.

With lots of training and support available from Conor, our reliability manager, we will support you with your development and training.

With your safety and health at the core of what we do, you would be supporting our large manufacturing plant in South Molton, just off the North Devon link road and within a short distance of Exmoor and the stunning North Devon beaches.

Norbord are a world-leading manufacturer of engineered wood-based panel products with 4 sites across Europe and another 15 in North America with our headquarters in Toronto. Please head to our website at [www.norbord.co.uk](http://www.norbord.co.uk) to find out more about us and how our products are used.

To find out more about the role or for more details, please contact Simon McIvor on 01769 575341 or via email at [simon.mcivor@norbord.net](mailto:simon.mcivor@norbord.net).
