Our Devon site has recently won a new contract to assemble and distribute kitchen units to over 100+ sites across the UK. We have a new team in place working across multiple production lines as we are expanding from 40 staff to approximately 70, covering a range of activities from picking, assembly, packing, quality control and warehouse.

We are seeking applications from experienced team leaders to work in the Added Value production area at our particleboard and furniture manufacturing facility in South Molton. This is an opportunity to join the business and become part of an Operations leadership team during an exciting period of growth. This is an ideal opportunity for an ambitious, resilient and target driven individual to progress their career in a successful, international business.

You will have previous experience at a similar level and working knowledge of a manufacturing/production environment. You will be comfortable delivering continuous improvement and supporting and developing a new team and client. With a new team, there are plenty of opportunities for you to take the reins and use your passion and experience in continuous improvement and lean manufacturing to deliver a world class product and service. It would highly advantageous if you have a NEBOSH or IOSH certificate and Six Sigma green belt.
